Pennine Care NHS Foundation Trust provides mental health and community services to people living in the boroughs of Bury, Oldham and Rochdale. Pennine Care NHS Foundation Trust also provides mental health services in Stockport and Tameside and Glossop, as well as community services in Trafford. The Trust provide a range of services for people who have serious mental illness such as schizophrenia and bipolar disorder, as well as more common mental health problems including depression, anxiety and dementia.

Akhter provided goods and services to Pennine Care NHS Foundation Trust

Akhter Computers plc supplied 1000 Toshiba Ultrabook Z10T Tablet Computers including customized integrated PC security card reader and docking station to the Pennine Care NHS Foundation Trust.

The IT Group within the Pennine Care Trust was keen to customize deployments to provide a range of differing business applications for the different departments within the trust.

The core of this service was built around the Microsoft System Center Configuration Manager (SCCM). SCCM allows the creation of Computer images, Application packaging and deployment based on specific departmental needs. Akhter and Toshiba worked closely with the trust's IT team to ensure that all the Z10T specific drivers and configuration files were tested and approved using Microsoft's SCCM.

Early engagement with the Trust's IT department and stringent testing of the product within the SCCM environment ensure a seamless and successful roll out.

The Toshiba Z10T is a multifunctional 2-in-1 Ultrabook that can be used as a traditional touchscreen PC, or the screen can be detached to be used as a tablet. With a FHD touch display, you can get the full Windows 8 experience with touch navigation as well as clear sharp images from the 1920 x 1080 pixels. The Z10 features excellent connectivity with USB2.0 and 3.0 HDMI, VGA, Ethernet and SD card.
